Follow –Up Progress

1. Medical Check-Up

After the final selection by the employer, candidates are sent for medical examinations at medical centers authorized by the respective embassy of the destination country. This ensures that all selected candidates meet the required health standards for overseas employment.

2. Passport & Police Clearance

Selected candidates are assisted in obtaining a new passport or renewing an expired passport, if necessary.

For employers requiring a Police Clearance Certificate (PCC), we provide full assistance in preparing and processing the required documents in compliance with official procedures.

3. Pre-Departure Training & Orientation

Candidates who successfully pass the interview or trade test may receive additional training to enhance their skills and meet employer requirements.

Training programs may include:

- Basic language training (if required)
- Skill development and trade upgrading
- Pre-departure orientation
- Information on working environment and living conditions
- Overview of labor laws and regulations of the host country

4. Visa Processing

Visa applications are submitted to the respective embassy of the destination country based on the work permit or block visa provided by the employer. We coordinate closely with employers to ensure proper documentation and timely processing.

5. Ticketing & Emigration Formalities

Upon confirmation of the visa, travel arrangements are made. The employer may issue a PTA (Prepaid Ticket Advice) or transfer travel expenses to facilitate the candidate's scheduled departure.

We also assist candidates in completing necessary emigration formalities with the concerned government department prior to departure.
